AI Engineer

Data Science || AI Researcher || Crafting Human-Like Intelligence with Code & Curiosity.

WORK EXPERIENCE

Head of Technical Officer , <i>Join Venture AI (JVAI), Betopia Group</i> ✎	07/2025 – Present Dhaka, Bangladesh
• Led and monitored cross-functional development teams, resolving technical bottlenecks and ensuring on-time, high-quality delivery • Provided hands-on AI leadership, supporting teams with architecture decisions, model integration, and problem-solving • Aligned engineering execution with company goals by managing target- based performance and delivery standards • Ensured product excellence by overseeing QA processes and enforcing strict quality and reliability benchmarks	
AI Developer , <i>Join Venture AI (JVAI), Betopia Group</i> ✎	12/2024 – 07/2025 Dhaka, Bangladesh
• Conducted requirement gathering meetings with clients across different countries and time zones before initiating projects. • Developed real-time rip current detection system using YOLOv11 for coastal video analysis. • Built AI story generation features powered by OpenAI models. • Implemented multilingual voice translation and real-time speech processing with Deepgram. • Created conversational AI calling agents using Vapi for automated voice interactions. • Designed and deployed RAG-based chatbots with vector search + LLMs for accurate, context-aware responses. • Worked on image generation and video generation tasks in computer vision projects	
Trainee AI Developer , <i>Join Venture AI (JVAI), Betopia Group</i> ✎	09/2024 – 11/2024 Dhaka, Bangladesh
• Focused on building and implementing AI solutions using RAG systems, LLMs, and computer vision modelsWorked on RAG-based chatbots and applications (using vector databases like Pinecone and FAISS) • Helped develop features powered by large language models (LLMs) • Contributed to computer vision tasks including object detection, image generation, and video generation. • Figured out new technologies.	

EDUCATION

Bsc in Computer Science and Engineering , <i>City University, Bangladesh</i> ✎ CGPA: 3.41/4.00	12/2019 – 02/2024 Dhaka, Bangladesh
Higher Secondary Certificate , <i>Tejgaon College, Dhaka, Bangladesh</i> ✎ Gpa: 3.41/5.00, Group: Science	06/2017 – 08/2019 Dhaka, Bangladesh

SKILLS

- **Generative AI & NLP:** LLMs, LangChain, LlamaIndex, RAG (Retrieval-Augmented Generation), Prompt Engineering, Hugging Face Ecosystem (Transformers, PEFT), OpenAI API, Gemini.
- **Computer Vision & Multimodal:** YOLOv11, Object Detection, CNNs, Image & Video Generation, Speech Processing (Deepgram, Vapi).
- **Languages & Frameworks:** Python, PyTorch, TensorFlow, Deep Learning (ANN), Machine Learning.
- **Data & Infrastructure:** Pinecone, FAISS (Vector DBs), Data Analytics, Power BI.

LANGUAGES

English: Full Professional Proficiency

Bengali: Native or Bilingual Proficiency

INTERESTS

- Blockchain
- Robotics

PERSONAL PROJECTS

Rip Current Detection System - Australian Beach Safety

- Developed a real-time rip current detection model using YOLOv11 in collaboration with client Kiel.
- Collected and utilized mobile-phone images captured directly from Australian beaches (handheld, real-world beach conditions)
- Fine-tuned YOLOv11 to robustly detect rip currents in challenging mobile-view footage. Achieved > 90% detection accuracy.
- Worked synchronously: Kiel gathered on-site beach data while model training, annotation, and optimization were handled in parallel.
- Designed to power a future web-based tool allowing beachgoers to detect dangerous rip currents via phone camera.

Story Generating APP

- This app is for everyone to generate storybooks.
- Used OpenAI to for the AI part.
- Use user-defined categories to establish the role, and help the user expand their story by asking targeted questions about when, what, and how. Questions was controlled by the admin panel.

LexBangla AI [↗](#)

- Developed LexBanglaAI.com, an AI legal chatbot for Bangladesh using Retrieval-Augmented Generation (RAG) with gemini and Pinecone vector database.
- The platform delivers instant, plain- language guidance on Bangladeshi laws in Bangla and English, with safety disclaimers and escalation to licensed lawyers.
